SKILLS

- **Languages:** Python, Java, C++, PHP, HTML and JavaScript
- **Frameworks:** Django, CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, GitHub
- **Soft Skills:** Problem-Solving, Team Player, Management, Adaptability, Building Network

Training

- **PwC Cyber Security Risk & Regulatory Launchpad** Jan 2025 - June 2025
 - Trained in **Python scripting** for **cyber security** tasks.
 - Learned **risk management** and **regulatory compliance essentials**.

- **Byte XL** Jan 2025 - Feb 2025
 - Practiced **object-oriented programming** with **classes, inheritance**, and **real-world** project applications.
 - Worked with **templates, exception handling**, and **file I/O** in various programming scenarios.

Projects

- **Document Comparison Web Application (Python, Django)** Oct 2025 - Nov 2025
 - Built a **Django-based** Document Comparison Web Application for analyzing and comparing PDF, Word, and text files.
 - Developed a **difference-highlighting feature** to clearly show changes between documents.
 - Added file upload, user login, and a clean, responsive UI using **Django Templates + Bootstrap**.

- **Real Estate Website (React, Chakra UI, JavaScript)** Oct 2024 - Dec 2024
 - Designed and developed an interactive, **user-friendly interface** to enable seamless connections between clients and top Builders based on location and specialization.
 - Implemented **responsive layouts** and optimized **UI/UX** using HTML, CSS, and **JavaScript frameworks** (e.g., React, etc).
 - Integrated **dynamic features**, including **real-time** property searches, advocate profiles, and contact forms.

- **Sudoku Solver Visualizer (Java , Swing)** June 2024 - July 2024
 - Covered the design, implementation, and testing of the Sudoku.
 - Understood the **backtracking algorithm** used to solve Sudoku puzzles.
 - The application follows a **Model-View-Controller** architecture.

- **Quiz Game (Python)** Sept 2023 - Nov 2023
 - Developed a **Python-based** Quiz Game using fundamental programming concepts and clean logic.
 - Used the **random module** and **randint** to shuffle questions and create a **dynamic** quiz flow.
 - Stored questions, options, and answers in **lists/dictionaries** for easy management.
 - Implemented score calculation, **input validation**, and a simple **command-line interface**.

CERTIFICATES

- Cloud Computing - NPTEL Jan 2025 - June 2025
- Learning C++ Programming – Udemy Jan 2024 - Mar 2024
- Mastering DSA using C++ – Udemy May 2023 - July 2023

ACHIEVEMENTS

- **Event Management:** Feb 2024 - Apr 2024
Successfully managed Youth Vibe at LPU, overseeing planning, coordination, and execution.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering **CGPA: 7.33** August 2022 - July 2026 (Pursuing)
- **S.L. Suri DAV Public School :** New Delhi, Delhi
[Intermediate] **Percentage: 76.4%** April 2020 - March 2022
- **N.S. DAV Public School :** Sitamarhi, Bihar
[Matriculation] **Percentage: 80.6%** April 2018 - March 2020
